PROFESSIONAL SUMMARY

Information Science graduate student at UNC specializing in human-computer interaction, with experience translating user research into product and design decisions. Currently conducting user research for a self-service portal in development at UNC, synthesizing findings into actionable priorities for a cross-functional team of developers and engineers.

PROFESSIONAL EXPERIENCE

Research Data Management Fellow August 2026 - Present

UNC Research Data Management Core *Chapel Hill, NC*

- Conduct user research interviews with UNC researchers, synthesizing findings into personas to prioritize user needs and define feature requirements for self-service researcher portal built in collaboration with team of developers and engineers
- Translate usability audit findings into UI design and content recommendations, iterating based on ongoing user feedback
- Design online training modules for research data services, applying user-centered design principles
- Partner with outreach and engagement team to develop materials and present service offerings directly to end-users

Marketing Coordinator and Legal Assistant March 2023 – August 2026

Minick Law, P.C. *Charlotte, NC*

- Planned and executed 3 annual firm conferences end-to-end, producing all promotional materials, workbooks, and ad campaigns; grew social reach 158% (Facebook) and 269% (Instagram) through content strategy
- Authored 5+ standardized process handbooks and led 10+ training sessions to operationalize new procedures
- Standardized intake, consultation, and client communication protocols across 45+ counties in NC, improving consistency of client experience at scale
- Processed 200-400 client intake requests weekly while managing consultations independently across 20+ counties
- Analyzed and synthesized firm data into monthly KPI and financial reports

Presentation Coordinator October 2022 – May 2023

UNC Asheville Junior Bulldog Program *Asheville, NC*

- Developed a structured presentation program introducing middle school students to UNC Asheville's Mass Communication department and career pathways
- Recruited and trained presenters, designing all instructional materials and managing sessions end-to-end

SKILLS

Core Skills: User research, Usability testing, UI design, Requirements gathering and prioritization, User-centered design, Data-driven reporting and analysis, Workflow standardization, Cross-functional collaboration

Software and Tools: Figma, Adobe Creative Cloud, Microsoft Office Suite, Python (developing), SQL (developing)

EDUCATION

University of North Carolina at Chapel Hill | M.S., Information Science May 2027

Relevant course work: Usability Testing and Evaluation, UX Design and Usability, Systems Analysis

University of North Carolina at Asheville | B.A., Mass Communication | 3.9 GPA May 2023
